Percent Change in Three Month Moving Average of New Retail Registrations versus Same Period Year Earlier

The graph above provides a clear picture of the trending direction of the county market. It shows the year-over-year percent change in the three month moving average of new retail light vehicle registrations. The three month moving average is less erratic than monthly registrations, which can fluctuate due to such factors as the timing of manufacturer incentive programs, weather and title processing delays by governmental agencies. *Figures for November 2019 were estimated by Auto Outlook. Data Information

All data represents new vehicle retail registrations in San Diego County and excludes fleet and wholesale transactions. Please keep in mind that monthly registration figures can occasionally be subject to fluctuations, resulting in over or under estimation of actual results. This usually occurs due to processing delays by governmental agencies. For this reason, the year-to-date figures will typically be more reflective of market results.
